

ENFIELD PUBLIC SCHOOLS
OFFICE OF THE SUPERINTENDENT OF SCHOOLS

UPDATED NOTIFICATION

January 7, 2015

Re: Guardian/Parent/Staff Notification
Asbestos Removal at Enfield High School
Enfield, Connecticut

Dear Guardian(s), Parent(s) and Staff Members:

Enfield Public Schools is required to undertake the removal of asbestos in three locations during school to facilitate renovation work. The work involves the abatement of areas in the cafeteria, girl's locker room and lower level kitchen and mechanical spaces.

The work involving the removal of asbestos will be completed on February 13, 2015. It is anticipated that the work will be completed and cleared using Transmission Electron Microscopy (TEM). We are requesting consideration for abatement under the "Full Occupancy" provisions as detailed in the Circular Letter EHS #2006-33

No work will proceed beyond the established completion date of **February 13, 2015** without prior approval from the CTDPH.

The abatement contractor will be working for the Enfield Public Schools. The project will be monitored by licensed Project Monitor(s) from EnviroScience on a full-time basis. The Project Monitor and the contractor's Site Supervisor will be regularly checking the engineering controls throughout the duration of the project. PCM air samples will be collected inside containment and outside containment to monitor fiber concentrations. The Project Monitor will read air samples throughout the day. The monitoring includes, but is not limited to pre-work inspection, inspection and air sampling during the abatement process, final visual inspection and final air clearance testing.

This asbestos removal work has been approved to proceed as planned by the State of Connecticut Department of Public Health based on an application for variance submitted on our behalf by Fuss & O'Neill EnviroScience, LLC. The project monitor will take air samples to verify that no adverse effects will occur to the occupied portion of the school.

As required, this notification is being sent to all parents and guardians of the children/students, faculty, staff of Enfield High School and will be posted on our website. Any questions about the project can be directed to the Superintendent of Schools at 860-253-6531.
